

Autumn Leaves November to return in December

-) This block is about playing with color and I will give you a design to do a color mock-up if you just want to play with it first. You will need to cut 1" squares to make your mock up. And I just cut a 1/4" strip for the stems. SOME SQUARES IN HALF TO GET THE TRIANGLES.
-) From your stash, pick leaf colors of red, orange, yellows even some browns and wines. I did not use yellow but you can. You need 15 different colors. I did not repeat but you can. You need 4 greens although you could only use one.
-) **Cutting Instructions:** Cut 12 - 2 1/2" squares of leaves colors.
-) Cut 4 different leaf colors 2 7/8" squares to layer with background 2 7/8" squares to make half squares** (two squares sewn together 1/4" to each side of the diagonal center line and cut apart.)
-) **Background is White on Beige.** cut out: Four 2 1/2" squares and Eight 2 7/8" squares to make your half squares.
-) For the stems I cut four 2 7/8" green squares. Then I drew the diagonal line down each of them and drew 1/4" on either side of that line to give a 1" bias strip. I diagonal cut four of the 2 7/8" background triangles and sewed a triangle to each side of my bias strip. I re-squared my squares to 2 1/2" which was usually 1/4" EXTRA on the top and bottom TO CUT OFF. *** MAKE SURE YOU DO NOT TURN YOUR STEM SQUARES WHEN SEWING THEM AS THEY WILL NOT MATCH.
-) Then lay out your squares, following the pattern and sew 4 leaves. Then sew the 4 leaves together. YOU DO HAVE A LOT OF BUTTED SEAMS TO MATCH UP .
-) Have fun with it. There is some challenge but not difficult.

14 triangles
